Carrer Objective

Work as a Software Developer, building high-standard applications focusing on scalability, code quality, security, and maintenance.

Summary

Experienced professional with a strong background in logistics, currently transitioning to a career in software development. My expertise in optimizing logistical processes, combined with the skills I've acquired through programming and software development training, equips me to be an effective problem solver. I am dedicated to applying my technical and analytical abilities to build innovative and scalable solutions in the tech industry.

Work Experience

Logistics Processes Clerk | Lidl Portugal | April 2024 – Present

- Utilize SAP EWM for managing goods in, creating Inbounds and Transport Units (TUs).
- Oversee the receipt and entry of goods into the system, ensuring accuracy and efficiency.
- Support logistics operations.

Manager | Smash Burger, Lisbon, Portugal | April 2022 - December 2023
